Dear Roger:

This is to informally advise you that a project has been approved for installation of two 5,000 gallon fuel storage tanks and two generators. With the installation of this equipment I think you will be in a very sound position to meet any normal emergency.

25X1A9a

I would like at this time to acknowledge receipt of your 30 November letter reference [REDACTED] I have nothing definite to report on this but we are taking the necessary steps to assist him in finding a thoroughly compatible position within the Agency.

25X1A7b

Also acknowledged is your 1 December letter regarding the photo map of our installation on [REDACTED] I concur wholeheartedly with your action and will not be distressed if in the final map the [REDACTED] is included or excluded.

Best regards to [REDACTED] and all the good people at your station.

Sincerely,

25X1A9a
